PROFESSIONAL PROFILE

Technical Lead and Full Stack Developer with 17 years of experience in IT and software development. Expert in designing robust architectures that integrate advanced business logic on the Backend (Node.js, Python, PHP/Laravel) with dynamic Frontend interfaces (Angular, JavaScript). Specialist in process automation through complex integrations (REST/GraphQL APIs) and Artificial Intelligence solutions (NLP, data processing, computer vision). Proven track record leading technology departments as principal developer and coordinating IT support staff to ensure service continuity and system stability.

CORE COMPETENCIES

Backend Development: Node.js, Python, PHP (Laravel, Yii2), C#, .NET, Go (familiarity).

Databases: Relational (MySQL, SQL Server) and NoSQL (concepts).

IT Leadership & Management: Technology strategy, IT support coordination, systems administration.

Automation & AI: AI models (Gemini, OpenAI, NLP), automated backups, bots (Slack), Zapier/Make.com integrations.

Frontend Development: Angular / AngularJS, JavaScript, HTML5, CSS3, Bootstrap, jQuery (React fundamentals).

Architecture & APIs: REST APIs, GraphQL, microservices, system integrations.

DevOps & Tools: Git, Docker, Agile methodologies, CI/CD pipelines, QA test automation.

PROFESSIONAL EXPERIENCE

USA GLASS LLC

Remote

Full Stack Developer & Integrations Specialist

Jan 2026 – Present

Platform Integration: Designed and built a unified integration pipeline connecting GoHighLevel (GHL), Slack, email services, Nextiva, and QuickBooks, automating operational and billing workflows.

Web Consolidation: Restructured and consolidated an ecosystem of 15 corporate websites under modern performance and security standards.

GSD CONSULTING

Remote / Colombia

IT Technical Consultant & AI Developer

Sep 2025 – Feb 2026

Leadership & Development: Served as principal developer and project lead, coordinating one IT support team member.

Software Architecture (AI-Powered ATS): Designed the internal portal and automated recruitment system (ATS) that performs CV scraping and evaluates candidate data through sentiment analysis and English proficiency assessment from video recordings.

Workflow Automation: Developed a Slack bot to guide the step-by-step onboarding process for new employees.

System Synchronization: Integrated Time Doctor with Slack to automate staff check-in notifications and built a web dashboard to unify monitoring across multiple tools.

ALCOCK AND ASSOCIATES

Remote / USA

Senior Full Stack Developer & IT Lead

Dec 2024 – Present

IT Management: Directed the firm's internal technology strategy as principal developer, continuously coordinating one dedicated IT support staff member.

AI-Driven Reporting: Leveraged AI tools to optimize generation and structured extraction of reports from the internal legal system, formatting data for automated consumption via service APIs.

Backup Automation: Designed and implemented automated backup systems to securely migrate data from closed (legacy) systems to internal company services.

Critical Systems Integration: Linked telephony infrastructure with Submit 800 software using REST APIs to centralize operational data recording.

Process Optimization: Built custom web applications and automation scripts that significantly reduced the operational workload for the legal team.

INGACOV

Colombia

Full Stack Developer (Freelance Project)

May 2026 – Present

Custom Development: Designed and developed a comprehensive management system (ERP) in Laravel for inventory control, purchasing, logistics, and restocking of vending machines operating in hospitals and universities.

KIPCLIN

Hybrid

PHP Developer

Mar 2024 – Oct 2024

Optimized modules and functions on Yii2/PHP-based platforms, improving technical performance and application usability.

Collaborated actively with the QA team to identify performance issues and perform refactoring before production deployment.

BUILT — TECH FIRST

Remote

PHP Developer

Mar 2022 – Jan 2024

Corrective maintenance and development of new functional features on Laravel/PHP-based systems.

CTI CONSULTING

Remote / USA

PHP Developer

Jan 2022 – Feb 2022

Intensive bug fixing on legacy applications and technical documentation authoring for the IT department.

INCOLMOTOS YAMAHA S.A. Girardota, Colombia

Systems Analyst / Senior Developer Oct 2000 – Oct 2022

22-year tenure at the organization, with the last 13 years dedicated exclusively to software development and IT systems administration.

LMS Management: Nationwide implementation and administration of the Moodle platform for the company's virtual training programs.

Corporate Development: Designed the corporate Intranet (Joomla) and developed custom modules for human resources and production control.

Data Integration: Unified heterogeneous relational databases to optimize the information flow across the manufacturing line.

EDUCATION

B.S. in Computer Engineering — UNISABANETA, Sabaneta · Graduated 2018

Systems Technology (Associate Degree) — Compuedu, Envigado · 2004

Certification: Web Development Full Stack — LinkedIn Learning
